**Join Armand Botha for an engaging talk on Love, Eros, and Sexuality Lifeskills!**

In this talk, Armand will share insights from his research paper on the characterological exploration of intimacy and sex in gay men, examining how Love, Eros, and Sexuality can facilitate healing for ourselves and our clients. Drawing from the insights of John C. Pierakos, the Internal Family Systems (IFS) model, and Armand's Lifeskills approach, we'll explore how to understand and connect with different aspects of ourselves, in service of healing.
